

Bert Church High School

Ferguson

Course Outline: Science 10

Instructor: Mrs. King/Mr. Larsen/Mr. Netzel/Mr.

School Year: 2021/2022

Senior High Science Program Philosophy

The senior high science programs are designed to help all students attain the scientific awareness needed to function as effective members of society. The expected student knowledge, skills and attitudes are approached from a common philosophical position in each science course.

In the senior high science programs, students focus on learning the big interconnecting ideas and principles, which provide continuity with the junior high program and build on students' previous learning.

The senior high science programs place an increased emphasis on developing methods of inquiry that characterize the study of science.

Students will be expected to show an appreciation for the roles of science and technology in understanding nature. The learning context is an integral part of the senior high science programs. Learning opportunities will be made meaningful by providing concrete experiences that students can relate to their world.

The senior high science programs place students at the centre. Students are active learners and will assume increased responsibility for their learning. They will appreciate the value of teamwork and make a positive contribution when working with others to solve problems and complete tasks.

Evaluation

Student report card marks are determined on the basis of homework, class assignments, quizzes, unit exams, and a final exam. A general mark breakdown follows:

Unit	Topic
A	Energy and Matter in Chemical Change
B	Energy Flow in Technological Systems
C	Cycling of Matter in Living Systems
D	Energy Flow in Global Systems
	Final Exam

Each Unit mark is made up of the following components:

- | | |
|-----------------|------|
| ● Classwork | 15 % |
| ● Section Tests | 15 % |
| ● Unit Tests | 40 % |
| ● Final Exam | 30 % |

Course Materials/Textbook

Science 10, Toronto, Ont., Canada: Addison Wesley 2003 (\$118.55)

Students must also provide the following supplies:

- Pens, pencils, eraser, ruler, 3 ring binder, lined paper, scientific calculator, highlighter (optional)

Science Department Expectations

Please refer to the student handbook for all school policies. Additionally, these are expectations specific to the science department:

Late Procedure	It is reasonable to expect each student to be punctual for each class period. Repeated lateness is disrespectful and discourteous and, if not corrected tends to become commonplace. Corrective action may include detention time, parent intervention or in chronic situations referral to administration.
Missed Assessments	When a student is absent it is their responsibility to contact the teacher about missed work and to determine a mutually agreeable time for missed assessments to be completed. If no attempt is made to contact the teacher within one day of the student's return, or the work is not completed within agreeable time, a zero will be given.
Calculator Policy	<p>It is the student's responsibility to have an appropriate calculator for tests, quizzes, and assignments.</p> <ul style="list-style-type: none">• Calculators may be used for exams/quizzes but may not be shared.• Calculators will not be lent out to students by their teacher.• No information, text, or formulas may be stored in electronic form.• Calculators will be cleared before quizzes, exams, and final exams.
Appeals	Students and parents may direct, in writing, any appeal of the final grade to the school Principal (see page 19 of the student handbook).
