

At-Home Learning Information Sheet

With the shift to Scenario 3, we want to keep the communication lines open with students and parents. To aid this, we have shared with you best ways to communicate about your child's learning.

1. Our focus is to keep the learning continuous for your child in all of their classes.
2. Some classes are easier to do this in than others. Some option classes will look different due to the lack of access to physical space and resources. In these classes, teachers will adjust and work with the students to help them with their learning.
3. Students will receive weekly learning plans from their teachers prior to Monday morning at 9:00 AM.
4. Students will be expected to join their teachers in synchronous learning sessions scheduled at the times below, following the bell schedule. Of note, students are to access their classes everyday although online Zoom/Google Meet sessions may not be for the entire time allotted. Attendance will be taken to ensure students and families are communicated with about student participation.
5. Assessment will continue for students
6. The phone will be monitored as well as the general Bert Church email. For best results, please follow the communication charts below.
